Organisation Overview

Name: Shany's Handmade Toys

Brief history of the organisation.

Shany's Handmade Toys is a partnership business that was established in 2022. It was founded by Makanaka Mhuruyengwe and Tariro Mapuwei. The business has sold more than 5,000 handmade toys and has expanded into two physical stores.

Mission and vision statements

Slogan: A Toy for Every Child. A Memory for Every Heart.

Vision: To create a world where every child feels represented through our toys.

Mission: To create handmade, customizable toys that are diverse and resonate with every child's culture, history, and personal stories because every child deserves a toy that represents them.

Target audience.

Primary: Children of diverse backgrounds and abilities. (Tactile toys for blind kids, sound-based for deaf kids.)

Secondary: Parents, caregivers, and gift buyers.

Website Goals and Objectives:

Main Goal: Within the first 3 months of launching the website, increase online enquiries by 20% and grow our Instagram following by 1,000 followers through the website's social media integration .

The goals of the website are:

- Provide valuable information about toys such as descriptions, prices, categories and safety information
- Increase website traffic through visually engaging images.
- Build trust with customers by creating a reliable toy review section.

Key Performance Indicators (KPIs) to measure success:

- Number of people accessing the website
- Number of enquiries made through the website
- Customer Reviews and satisfaction levels
- Number of returning viewers on the website
- Increase in sales after launching the website

Current Website Analysis :

There is no current website for Shany's Toy Store. However, there is an online presence through WhatsApp and Instagram.

Strengths and Weaknesses:

Platform	Strengths	Weaknesses
WhatsApp	Direct communication with customers	Slow browsing, limited customisation, low reach
Instagram	Visual platform, good engaging photos and videos	Hard to reach target audience organically, limited product information

Areas for improvement :

1. Build a proper website with faster browsing speed
2. Create more space for product customization options
3. Use(Search Engine Optimisation) SEO to help reach target audience better
4. Add a product catalogue with extensive and clear toy descriptions

Proposed Website Features and Functionality:

Essential features the website must include:

- Homepage (logo, navigation, video, product categories)
- About Us (history, mission, founders, FAQ, how-to video)
- Catalogue (images, pricing, categories, safety)
- Reviews (customer photos/GIFs)
- Filter by disability, price, age. Zoom/rotate images. Contact form. Store locations.

Functionality

- Browse by category, filter by disability (Educational, Outdoor, Puzzles, etc.)
- Click images to zoom, rotate, shrink
- Filter by price, size, age, disability, and category
- Leave reviews with photos and GIFs
- Access social media and contact form
- View store locations and addresses

Design and User Experience:

Colour Scheme:

The proposed colour palette is a soft but bold colour palette that is used to attract kids. The primary colours will be purple and white, creating a soft, fun, and modern look. The text will be black and bold for emphasis.

Accent colours (Call to Action buttons): Green or Blue

Neutral colours: Dark grey for text, Light grey for backgrounds, and White

Typography: Headings mainly Heading 1 and Heading 2 in Times New Roman. Make use of subscript-style fonts like Poppins and Aptos both (bold and normal) for a friendly and modern feel for a toy store.

Layout and Design:

- Clean and bold style
- Grid layout, full-screen homepage
- Card-based toy images with circular edges
- White space, consistent spacing, proper alignment
- High-quality images and GIFs
- Colourful images to attract children and parents

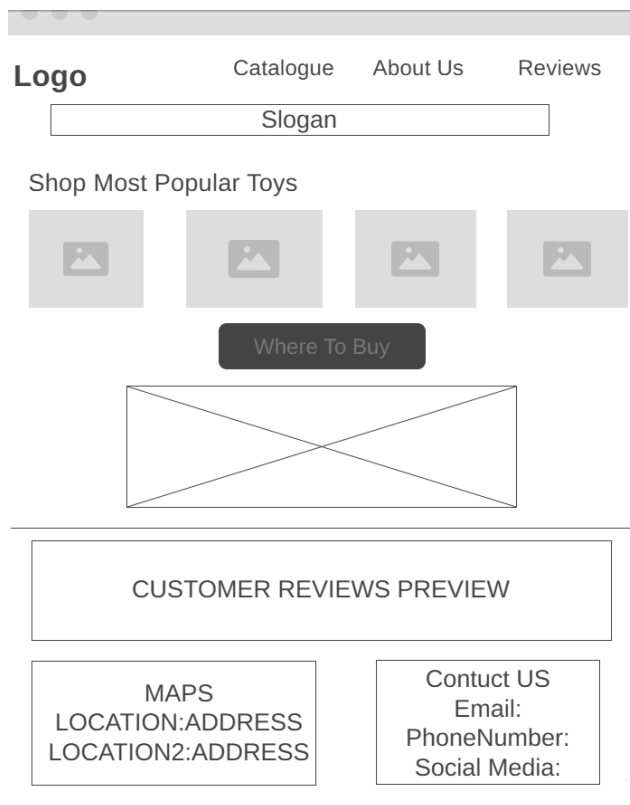

Homepage:

- Logo and navigation grid in header
- Engaging video of the toys
- Banner with the most popular toys
- Footer with additional links

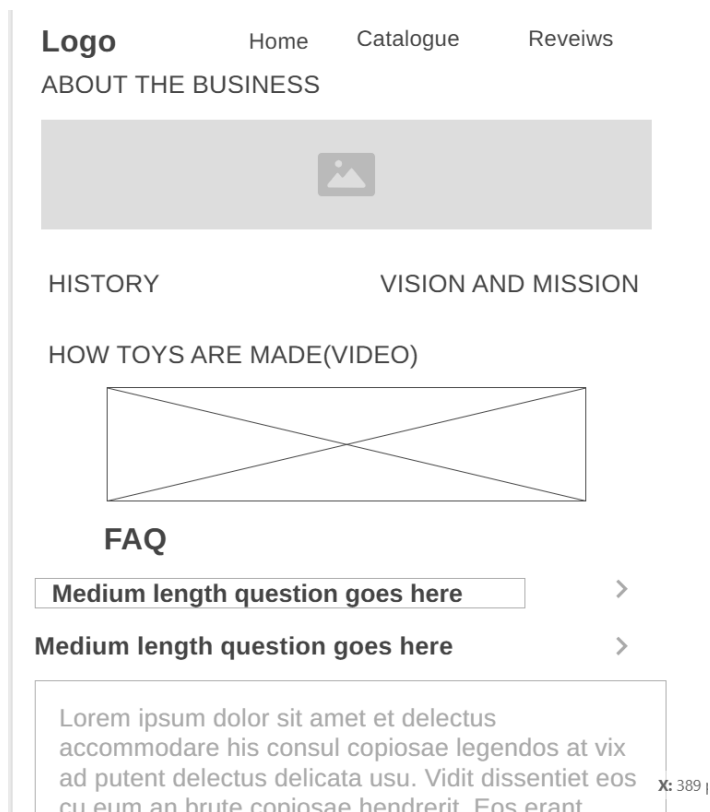

User Experience Considerations:

- Simple navigation menu
- Clear call-to-action buttons (green or blue)
- Easy-to-read text, good contrast (black text)
- Consistent design across all pages
- Fast access to products via categories and featured sections
- Easy-to-see contact information
